TEMPTATIONS 25

THE NEW GLAMOUR / VELVET UNDERGROUND

Introducing NÜ Temptations 2025

This season our muse is a shining jewel against the harsh urban landscape. Decidedly 80s in feel with slouchy pants, dramatic thigh slits and billowing puff sleeves, this collection is a modern take on eras gone by. Rich textures of crushed velvet and fluid silhouettes come to life on the body in motion – these were pieces made for dancing. Think loose pants tucked into boots and accented with studs and metallic embellishments. From midnight black to petrol green and iron grey, the palette is a far cry from the garish neons of disco days. Instead offering a more sophisticated kind of glamour. She carries this polished aesthetic into her day wardrobe, with tailored jackets and structured midi dresses that can be layered and reworked as the day unfolds.

Enjoy the season.
